ABOUT ME

I am a web developer with more than two years of experience in
Angular development. I focus on creating modern and user-friendly
single-page applications (SPAs) that provide a seamless and efficient
user experience. I enjoy learning new technologies, taking on
challenges, and continuously improving my skills.

WORK EXPERIENCE

WEB AND MOBILE APP DEVELOPER   DECEMBER 2020 - PRESENT

Angular and Ionic Developer

Developed SPA and PWA applications in Angular focused on real
estate management, API integration, and UI optimization.

FOUR SEASONS HOTELS LIMITED   JULY 2019 - DECEMBER 2019

IT Support Specialist

Managed user accounts using Windows Active Directory in a hotel
environment, resolved technical issues via a ticketing system, and
performed data backups.

ZOOT A.S.   MAY 2018 - NOVEMBER 2020

IT Support Specialist

Configured and maintained IoT devices, monitored networks,
managed connected devices, and provided user support.

PROJECTS

WEB APPLICATION BIRDROCKRES

Real Estate Management Application

A web application designed for efficient management of rental
properties. Built with Angular, featuring document management and
photo organization functionalities.

MOBILE APPLICATION BIRDROCKRES

PWA for Real Estate Management

A supplement to the web application, developed in Ionic, providing
seamless access from mobile devices.
